Dear Madam/Sir

I had received the reply letter dated 23 September 2008 by Kieran Power on 9 October 2008 and a electronic record of 7 October 2008 by examiner Mr. L.F.McCaffery on 22 October 2008 that my National fee must include the continuation fees of 1-19 years of after grant my invent application.

I reiterated that the continuation fees under the PCT Article 22 or 39(1), which stated National fee is AU\$ 320 of the page 2 of "PCT Applicant's Guide" only and PCT Article 27(1), No national law shall require compliance with requirements relating to the form or contents of the international application different from or additional to those which are provided for in this Treaty and the Regulations. So this continuation fees of 1-19 years is an extra charges.

Your are clearly wrong to simultaneously shown on the letter of 7 October 2008 by Examiner Mr. L.F.McCaffery. The third paragraph that :

▯ You should also be aware that the final date for acceptance for this application is 13 December 2008. ▯

If my final date of this application is 13 December 2008, Why would the second examination be stop today? This obviously shown that you have received an administrative order from Prime Minister Mr. Kevin Rudd and purposely cancel my application of medicine invention for swap benefits from the China Government. This is obviously that your Prime Minister was proficient in Chinese language, but he was be learn the dirty trick at Beijing of China? **Therefore, I was not hove leeway to choose, if you cancel my application that I will complain in Australia society intense.**

I believe that the Australia Government should recognize this invention that has influenced the advancement of mankind civilization.

Yours faithfully,

Applicant and inventor:
