

Respectable
Ministry for Health
of Canada

Dear Anne McLellan,

I am Lin Zhen Man, a permanent residence of Singapore, the ID Card No. Is S2665604D. I had wrote to you regarding the matters on the PCT patent about treating SARS Virus that I had applied in your country.

¶ Since February 2003 years, SARS infection has wrecks havoc in China, Hong Kong and many other countries in the world. Its effects had send repercussion throughout the entire international society. The death rate has been high and the Chinese and western medical social were quite helpless about this. So China, Taiwan , Hong Kong, Singapore and Canada etc. were listed on travel warning district by World Health Organization and pecuniary loss surmount thousand a hundred million, Mankind is faced with death threat. ¶

¶ Knowing how to treat the SARS virus infection had became the top most urgent matter in the Southeast Asia. During this urgent and difficult period of time, the inventors had came up with an innovative medical scheme to save lives, the newest of medical scheme is “Surface Treatment of SARS-Infected Lungs”. Due to the urgency of saving lives, the draft was fax to the Hong kong chief executive and Chinese leader on 15 May 2003. The English version was also forwarded to “WHO-Padey”, “WHO-Liden” by Mey-Verme, Mrs Cnia (WDC) and the leaders who were holding the Geneva meeting on 20 May 2003. ¶

About the above-mentioned two paragraphs that are background of my invention in the international PCT patent applied, the applied number is PCT/SG03/00145.

There are three attached letters, which I had asked the China, Taiwan and Singapore’s government to depute an impartial judge to estimate my intellectual property. Coming back to the subject, attachment 4 has a total of 12 pages on the PCT patent I had applied in Singapore Patent Office in 12 June 2003. Sober truth that my intellectual property has been put to use now and this invention is the only treatment of the SARS. I believe that Canada had used the same method to treat the SARS patients.

Canada is paragon of western civilization and is international PCT patent of a signatory country; therefore Canada Government has the responsibility to appoint of a dept. to handle that Intellectual property application of the “**Surface Treatment of SARS-Infected Lungs**”. I am conscientiously waiting for the minister Excellency’s instruction.

With the best blessing!

Respectfully yours!

Lin Zhen-man
