In re PATENT APPLICATION of:

Applicant(s) : Lin ZHEN-MAN)
Application No. : GB 0318315.9) Respond for
Filed : 12. 06, 2003) examination
For : **Surface Treatment of SARS-Infected**)
Lungs)

The Patent Office
Concept House
South Wales NP10 8QQ
United Kingdom

Dear
Dr William Thomson;

Fax: 44 01633 814 444

Thank you for letter regarding your opinion of examination that was sent on 3rd July 2007.

It's a pity that the novelty objection still stands as the only obstacle of my application in this letter of office action. Your examination reports are as follows:

2. The novelty objection made in my Examination Report of 7 February 2007 still stands because of your disclosure to the WHO on the 20 May 2003 and placement of that disclosure on the internet before the priority date of 12 June 2003. Thus, the subject matter of your current patent application was made available to the public before the priority date. I have also brought to your attention a discussion paper;

www.nearlvemmvrooms.com/2003_02_01_archive.shtml

found on the internet that mentions your www.ycec.com/SARS-to-die-e.htm paper before the priority date of the current application.

Firstly, the web address mentioned above was ineffectually present, besides the www.nearlvemmvrooms.com that was a website of search of Chinese(attachment 1.), and please keep watch that the archive date is 2003.02.01 or 01, Feb., 2003, that is stolen goods to impute to my application in evidence. Could you please tell me who supplied the website address? Why did you use this web page of unauthoritative in my application?

Also, under the Claiming Priority of PCT patent Article 8 (1) and the International exhibitions of Patent Act 1977 Rules 5. the applicant may contain a declaration to disclosure to WHO on the 20 May 2003, in this letter of office action which no finds any oppose a comment, The PCT and Act 1977 rules are show at below again:

The Claiming Priority of PCT patent Article 8 (1) is below:

- (1) The international application may contain a declaration, as prescribed in the Regulations, claiming the priority of one or more earlier applications filed in or for any country party to the Paris Convention for the Protection of Industrial Property.

And the International exhibitions of Patent Act 1977 Rules 5. it was same about the PCT

Article that :

- ¶ 5.-(1) An applicant for a patent who wishes the disclosure of matter constituting an invention to be disregarded in accordance with section 2(4)(c) shall, at the time of filing the application for the patent, inform the comptroller in writing that the invention has been displayed at an international exhibition. ¶

Nevertheless, dear Dr William Thomson misinterpreted at the page 1, line 16 as stated below:

- ¶ ... Ideally, your disclosure to the WHO should have been sent after you had made an application for a patent **and received a definitive priority date** from the Patent Office in question - be it China, Hong Kong, Europe or the United Kingdom. ¶

Obviously, the **definitive priority date from the** disclosure to the WHO on the 20 May 2003 this case before the PCT and Act 1977 Rules, the above-mentioned viewpoint of law can only to tell “yes” or “no”, but you misinterpret that “Ideally” that is your subjective argument! However, in this case it’s an epitome to shown British humanism and values as to whether have a face of hypocritically, I think, British should stand up to admit this invention that has influenced the advance of mankind civilization

Thank You!

Yours faithfully,

Applicant :

Lin Zhen Man
