Dear
Dr William Thomson;

Fax: 44 01633 814 444

Urgent! Urgent!

I must repeat that I had two letters sent to you part on 17 May. 2008 and 04 July 2009 that was regarding I have replied to the report under Section 18(3) dated filed before 8 February 2008.

Today, I was further to check up on the Examination Report of 08 Jan. 2008, I have discovered the report that had an explanation clear the latest date for reply is on 8 May 2008, so your letter's decision to put on one side my application of 16 Apr 2008 is wrongly and unfair and unreasonable.

It is reported that a six years of England children to die for infected the H1N1 again, because my this application of invention that "washing-lung" is the only effective medical treatment and it was an **LAST** invention at the field of lung bacterial infection disease in mankind society too. Besides, because the New Zealand patent office already to grant it a patent on 06 July 2009 for me, please see the attachment 1. So the British Empire should not to wallow is willing to accept the interventionist from gesticulate of China Government again!

Therefore, I have cannot help but to emphasize again, for to save life, please as quickly as possible to approved this application, it could be to set into action for UK CDC to make public use above the medical treatment of "washing-lung" to save life.

Yours faithfully,

Applicant : Lin Zhen Man
